### SHADOWY THIEF.

Robs Bellevue Hospital 52 Times in Two Nights, Despite Nurses.

New York, Sept. 7.—Fifty-two robberies have occurred in Bellevue hospital in two nights. The thief has reaped a harvest of many thousands of dollars' worth of jewelry and clothing, and the detectives are confronted with a weird mystery.

Not content with his hauls in the doctors' dormitories, the cunning thief has invaded the hospital wards like a prowling ghost at midnight and taken small sums from under the pillows of the sick. A score of patients have complained of losing small sums, and in every instance the nurse on duty has taken oath that she did not leave the room during the hours that the robberies occurred and that no strangers entered the door.

The thief has shown an intimate knowledge of the rules of the hospital and the habits of the doctors. He has worked under the very eyes of the nurses.

Yet, in spite of the daring and the frequency of the robberies, not the faintest clew to the thief has been found. Although every doctor was on the alert and the doors were carefully looked Tuesday night, the thief only laughed at locks, and the doors were quietly forced open, first in one section of the doctors' dormitory and then another.

It is stated that there is not a room that has not been visited in the two nights and some article of value taken. About three months ago the property clerk's office was broken into and about \$700 in jewelry and money belonging to the patients stolen. In that case also no trace of the thief or the stolen property has ever been found.

### VIM IS AGAIN THE WINNER.

German Boat Tilly Second in Race—Protest by Wannsee.

Marblehead, Mass., Sept. 7.—For the third consecutive time the American southerly class boats demonstrated their superiority over their German-owned opponents by again capturing first place in another of the races for the Roosevelt cup yesterday.

The Vim, Wednesday's winner, was again the boat to secure first honors. She was in the lead most of the time, although once or twice during the race the Auk had a few seconds the better of it.

The two American boats kept up their fierce and close contest to the very finish, but when only a comparatively short distance from the line the Auk, apparently, fouled the Vim. The Auk, although seemingly then certain of second place, immediately withdrew, and the Tilly II, which went a much better race than Wednesday got second place. The Caramba landed third place, and the Wannsee and the Gluck, and were at the tail of the procession.

The Wannsee protested the Tilly for fouling at the starting line. This will make the Caramba get second place if the protest is allowed. The Wannsee would then get third and the Gluck fourth. The withdrawal of the Auk may have been due to a foul with the Vim, for it looked as if the boats were mixed up at one time. Whether the Auk was injured could not be learned on the judges' boat, as she proceeded into the harbor.

### Child Dies of Alcoholism.

Queens, L. I., Sept. 7.—John Smittler, whose parents live in Franklin avenue, died Wednesday night of alcoholism. On Labor Day he found a demijohn containing whiskey. He drank some of the liquor and was unconscious when his parents returned. A doctor was called, but could not revive the lad.

### WANT BLOCK SIGNAL FACTS.

Commerce Commission Calls on All Railroads for Information.

Washington, Sept. 7.—The Interstate Commerce Commission yesterday made public an order calling on the railroads of the country for information in regard to block-signaling practice and electrical signaling appliances. The information is asked in order that the commission may comply with a joint resolution passed at the last session of Congress. In the opinion of the commission the subject is one of the most important of the several matters which were referred to it by Congress, as it has to do directly with the safety of life and property in railroad travel.

The questions asked the railroad are framed on the principals approved by the American Railway Association, and contemplate not only full statistics as to the practice of all the large railroads and the present state of the art generally, but also the salient facts as to the merits of the block signal, or space interval, principal for the running of railroad trains, and information as to what progress is being made in the introduction of improvements.

## NELSON MAY DIE

Battling Dane, Seriously Injured by Gans's Blows

### FIGHTING FOR LIFE

Delirious Since the Contest—Hemorrhages of the Ears Weaken Him, and His Brain Is Said to Be Affected.

Goldfield, Nev., Sept. 7.—Battling Nelson, the lightweight pugilist, who was beaten by Joe Gans on Labor day, is today fighting death.

Nelson is suffering severely as a result of the terrible punishment inflicted by the negro.

Hemorrhages of the ears and bowels have greatly weakened the Dane, and the medical men are greatly worried. Part of the time the Dane has been delirious, and it is feared that his brain has been injured. Even if he recovers the doctors say he probably will be forced to quit the ring for several months.

A report that Nelson was dying gained currency, and the fight promoters were for a time alarmed, as visions of arrest and trial for complicity in a manslaughter case floated before them.

In spite of the fact that he was badly injured in the battle, Nelson lost so many friends by reason of his foul play that no one except his manager has been seen since he became ill.

### PLATT'S COMPANY ACCUSED.

United States Express Charged With Having a Blacklist.

Washington, Sept. 7.—A charge of blacklisting is contained in a complaint filed with the Interstate Commerce Commission yesterday by J. Eugene Walker, a citizen of Media, Pa., against the Baltimore and Ohio Railroad Company and the United States Express Company, of which Senator T. C. Platt is president.

The allegation is made that, in accordance with a joint system of package express for persons in town adjacent to Philadelphia, certain fixed rates were established, and complainant avers that numerous citizens enjoyed the benefits of the rates on parcels from Philadelphia to Hockessin, not only on defendants' lines, but also on the trolley line to Hockessin. The defendants have since blacklisted the patrons of the trolley line, and compelled them to send packages via the Pennsylvania Railroad to Kennett Square, about five miles distant, to avail themselves of the package rates. It is declared that the station agent of the Baltimore and Ohio Railroad keeps in his office a list of the patrons of the trolley line, and that they received the privileges accorded to those who ride on the defendants' road.

## BABY BOY'S ITCHING HUMOR

At Age of Two Weeks Great Sores Broke Out—Head and Face Were Terrible Sights—Treated by Doctors and Hospital but Child Grew Worse—Could Not Sleep.

### CURED BY CUTICURA AT EXPENSE OF 75c.

"I wish to have you accept this testimonial, as your Cuticura has done so much for my baby. At the age of two weeks his head began to break out with great sores, and at the age of two months his face and head were an awful sight. I consulted a doctor, who said it was nothing but a light skin disease which the baby would soon get over. He seemed to get worse, so I called another doctor. His opinion seemed to be the same. They both prescribed medicine that did not do a bit of good. A friend advised me to take him to the hospital, which I did. Two doctors gave me medicine that was in a liquid form. Their medicine did him no good. Nearly every day I would read a testimonial in regard to Cuticura and my wife thought we would try it to see if it would help the baby. I got a box of Cuticura Ointment and a cake of Cuticura Soap. After using these he has become entirely cured. He couldn't seem to sleep as his face and head would itch so. What hair he had all fell out and to-day he has a nice head of hair and his face is as clean as can be. (signed) C. H. Evans, 19 Alston St., Somerville, Mass., June 7, 1905."

### ALIENATION CASE OFF.

Taft vs. Walker Will Not Be Tried at This Term of Court.

Burlington, Sept. 7.—The suit of Russell Taft vs. Charles E. Walker, an action for alienation of affection, was continued in Chittenden county court yesterday on terms to the plaintiff. The continuance is taken owing to the poor state of health of Madame Taft, mother of the plaintiff, who is an important witness in the case. This case has caused some comment, owing to the divorces which were made in the suit for divorce between Mr. and Mrs. Taft, which was tried at some length at the March term of court, the petition finally being denied by Judge Miles. A new suit has now been instituted by Mrs. Taft, who resides in Fairfax, against her husband. She claims a right to divorce on her allegation of her husband's infidelity.

Should the injunction be granted board members declare they will resort to other measures to crush out the high school secret societies.

## SAILS AWAY TO DIE

Italian Going Home to Lombardy to Meet Death

### AT SWEETHEART'S GRAVE

Brother Fails to Stop Him—Young Woman, Prevented by Parents from Joining Her Lover in America, Succumbs to Grief.

New York, Sept. 7.—A dramatic scene occurred on the French line pier yesterday as the steamer La Provence left for Havre. Among the passengers was Luigi Contarini, 24 years of age, who was bound for his old home in Lucca, province of Lombardy, Italy, to keep a suicide pact to die on his sweetheart's grave.

Antonio Contarini, a brother, created the scene of the pier, and afterward told his brother's story.

He said that Luigi became betrothed to Josephine Ballarini, a girl in his native town. Her parents opposed the match, preferring a wealthier suitor, and Luigi, with his sweetheart's promise to keep faith, came to this country to seek his fortune.

He established himself at Beaver, Oklahoma, where he procured a farm and tilled it successfully. Then he wrote for Josephine to come, but she replied that she could not; that her parents forbade; that she intended to commit suicide and that she expected Luigi to join her in death.

News quickly came that the girl had carried out her purpose, and Luigi sold his property at Beaver and started for Italy to kill himself on the girl's grave.

His brother, Antonio, lives at Paterson, N. J., and Luigi went to him, told the story and bade him farewell. Entreated to sever the man and on the pier yesterday, Antonio made his final appeal. He clung to his brother, kissed him and implored him not to go. Luigi shook his head.

Antonio fell on his knees, raised a crucifix aloft and with tears in his eyes, renewed his pleadings. Luigi could not be moved, and finally turning his back on Antonio, went on board the La Provence.

When the ship sailed, Luigi stood at the rail and watched Antonio, who had fallen again to his knees and with outstretched arms was becoming to his brother.
